Dear Dr. Gail Price-Wise:

Thank you for joining us on Thursday, May 24th, 2018 in our course, *Leading Change in Population Health—Moving From Talk to Action*. Your insights on how to manage biases as a step towards cultural competence was invaluable for our students. The class was impressed with the literature and tools that you shared to approach bias.

For your reference, I have included a link to your course evaluations completed by the students. You can access this information [here](#). Please contact me if you have any questions. Thank you for your time and helping to mold the next generation of leaders in population health!

Sincerely,

Roderick K. King, MD, MPH
